Acknowledgment

1. Receipt of the preliminary amendment filed 7/14/03 has been acknowledged and entered.

Claim Objections

2. Claims 6 and 9 are objected to because of the following informalities:

Claim 6 line 1, recitation "a said disk" is inappropriate.

Claim 9 line 3, the recitation "the tread section" lacks antecedent basis. Suggest replacing the word "the" with the letter – a --. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 4-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Thomas (U.S. patent 6,390,564 B1).

Thomas discloses a skid-steer vehicle comprising:

- a. at least a pair of wheels on each side thereof,
- b. a track mounted on each pair of wheels and further comprising a tread section of a tire, wherein
- c. the wheels include a hub having pneumatic tire thereon.

With regard to claim 4, Thomas is disclosed above meets all of the claimed limitations.

With regard to claim 5, Thomas is disclosed above further teaches a guide system comprising a plurality of disks (6), each of the disks being mounted upright on at least one side of a respective one of the wheels adjacent an associated edge of the track in use.

With regard to claims 6-8, Thomas discloses all of the claimed limitations.

Allowable Subject Matter

4. Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Allowable Subject Matter

5. Claims 9-10 would be allowable if rewritten to overcome the claim objection, set forth in this Office action. Claims 9-10 are allowed because the prior art neither shows nor teaches a skid-steer vehicle utilizing a track from a cut out sidewalls of a rubber tire and in combination with other elements recited.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Oberlander et al. (US. pub 2003/0038543 A1), Yovichin et al.

(US. 2003/0127911 A1), Lemke et al. (US. pub 2001/0040058 A1), Phely et al. (US. pub 2004/0017107 A1), Dow et al. ('909), Grawey et al. ('936), and Crabb ('176) are cited of interest.
